A Natural Choice.

Benefits of choosing an ENERGY STAR® combination boiler/water heater

- **Increased efficiency.** These combination water heaters bring low running costs and energy efficiency, since you are not paying to continuously heat water in a tank.
- **Unlimited hot water.** With no water tank to heat up, combination boiler/water heaters can provide an unlimited supply of hot water on demand.
- **Space-saving design.** Combining both a water heater and a central heating boiler into one compact unit saves you significant space in your home.
- **Instant rebates available. Get up to a \$675 rebate** on your purchase when you use a participating contractor.

► **Talk to your contractor to learn more.**

*Equipment must be purchased on or after April 1, 2023, and installed by March 31, 2024. Rebate applications must be received by April 30, 2024.
