

Helping your business is our business

Reduce energy use, save money, and receive **instant rebates** for improvements.

Improving energy efficiency at your business is one of the easiest ways to reduce operating costs. And when you replace old space and water heating equipment, you can get **instant rebates** from New Mexico Gas Company. Making energy-saving upgrades now will help increase your bottom line and lower your energy costs for years to come. Your participating contractor will complete the installations and even handle the paperwork.

Program Benefits:

- Reduced overhead
- Improved customer and employee comfort
- Decreased maintenance time and associated costs
- Increased energy efficiency, which can improve your bottom line
