ENERGY STAR
AWARD 2016
PARTNER OF THE YEAR

Four Easy Ways to Save

1. ENERGY STAR® Space Heating Program

Get rebates up to \$375 when you install an ENERGY STAR gas furnace or boiler. A high efficiency furnace or boiler can reduce your energy use, improve comfort and help you save money. (AFUE of 92% or greater)

2. ENERGY STAR Water Heating Program

Get rebates up to \$300 by installing an ENERGY STAR tankless water heater or condensing water heater with an Energy Factor (EF) of .90 or greater.

3. Residential Insulation Rebate Program

Get rebates up to \$500 when you add insulation in the attic or roof of your home. Existing insulation must be R-19 or less to qualify.*

4. Low Flow Showerhead Program

Get a free package containing a low flow showerhead and faucet aerators. A \$38 value, this package could save up to \$150 on natural gas and 75,000 gallons of water over the life of the products.

*New construction projects and additions to existing homes are not eligible for insulation rebates.

For more information on these programs and a list of participating contractors, visit nmgco.com or call **877-501-7835**.
